Sam Walnowitz neers demanding a minimum pay of ing for. He was remanded to full to \$7.07 a day. The Sub-Treasury, Poat await sentence.

Office, Federal Building, Custom House. Sam Halmovits, a chauffeur, who Barge Office, Brooklyn Post Office, the stopped too long at Willoughby and Government buildings of Bedloe's Island Myrtle avenues with a truck full of and Ellis Island were left without engineers, firemen and oilers, but most of the Magistrate McClaskey for obstructing buildings are served with outside electraffic. Several men were arrested for Farley, were both lagerated and bruised buildings are served with outside elec-trical power, and operation of elevators using strong language at the strike was not interfered with,

PERSHING TO TOUR LATIN AMERICA

Will Attempt to Foster Better Feeling Toward U. S.

from the United States to the countries of Latin America. Plans are under way now for a tour to be made by him tween the United States and her Latin the afternoon; neighbors. It was said at the State Department to day that the decision to send Gen. Pershing on this broad diplomatic mission was under consideration.

It is understood that the decision merely avaits the completion of the details.

It is anticipated that the visit of Gen. Pershing to the Latin American countries will be regarded as one of the most delicate compliments the United States could pay to the sister republics

As commander of the American Ex-peditionary Forces and as the chief military efficer of the army it is recog-nized that Gen, Pershing would have a standing in South America which could be excelled by no other person.

MOROSCO 翻题编辑 THE BAT

A Personal Letter

TO THE PEOPLE OF NEW YORK:

(This being the first time in person concerning our work).

The picture of WAY DOWN EAST, which we are presenting at the Forty-Fourth Street Theatre, beginning to-morrow evening, is just a simple, plain old-fashlond story for plain, every-day buman beings—"even as you and I." If you like this sort of tale, you are most welcome; if you do not we hope you will come some other time when we have a different story.

There are no particularly spectacular or massive effects—excepting perhaps in the end of the last part of the play embracing the storm scenes and those where the here and hereine are caught in the ice mass during the river's great break-up—the play mostly depending upon what human interest it may contain.

Nevertheless, it has been most expensive. Over two months with a large working and engineering staff were spent in securing the storm scenes, in picturizing this elemental, resistless force in the great ice-break on the river, raging with damned up waters. But, if you are interested at all, we imagine it will be in the characters—comic and tragic—and we hope that we have translated some of the beauty and sweetness of American ife: that we bring to you a little fragrance from the fresh fields and from the spring blosoms: a little of the loy of sleighing parties and the music of jingling bells; a little of the glad spirit of merry-making and innocent dancing and festivities—and we hope forgirable abstrdities; a little of the story of love, not alone the vision of the ideal love of one man for one woman, but we do pray that we have been able to translate a little of that great love, the sweetest and heat of all—Motherlove.

It represents an actual expenditure of over eight hundred thousand dollars. If anyone is interested enough, we will gladly turnish audit from Price. Waterhouse & Cempanythis being perhaps the most expensive entertainment since Caesar plated the Arena with aliver for the citizens of ancient Rome. We know that million dollar productions have often been advertised. Our Fress Department will doubtless alaim this a two million dollar production, but we are telling you the simple truth.

Also, we realize that all this has nothing to do with the merits of the picture. In the dark, the dice of fate are lifted, and when we throw it is for you. Oh, masters of the game, to say whether we win or lose.

(Signed) Dweriffict.
